## Objective hierarchy

- **Phase A** — Day 0+ — `OUTCOME_TRAFFIC` · pixel learning — start lighter-funnel, graduate after 200+ events
- **Phase B** — Day 14+ — `OUTCOME_SALES` · promote to conversion objective once pixel has signal
- **Phase C** — Day 21+ — `OUTCOME_SALES` · scale into lookalike + second cluster

## Budget allocation

Cold: 60% · Warm: 25% · LAL: 15%

| Adset                       | Role | Daily  | Approval needed |
|-----------------------------|------|--------|-----------------|
| BROAD                       | cold | \$10   | no              |
| Mechanical / Repair — broad | cold | \$10   | no              |
| Cosmetic / Luxury Owner     | cold | \$10   | no              |
| RT_PIX_30D                  | warm | \$6.25 | no              |
| RT_PIX_60D                  | warm | \$6.25 | no              |

## Audience priority (launch order)

1. BROAD — broad
2. INT\_MECH\_BROAD — Mechanical / Repair — broad (180k-220k)
3. INT\_LUX\_COS — Cosmetic / Luxury Owner (55k-80k)
4. RT\_PIX\_30D — retargeting
5. RT\_PIX\_60D — retargeting

## Creative angles (3-way test)

### PAIN — Education / Myth-Busting

- Hook: Problem-led question
- Format: reels\_15\_30s
- Direction: Lead with the pain in 'Education / Myth-Busting'. Whitespace — 'is ceramic coating worth it' type educational reels build trust and drive saved/share metrics. Strong long-term flywheel.

### ASPIRATION — Before/After Transformation

- Hook: Outcome-led visual
- Format: reels\_15\_30s
- Direction: Show the outcome from 'Before/After Transformation'. Visual proof — cosmetic side's strongest angle. Blue Rose has the work; need photographer/videographer commitment.

### PROOF — Local Pride / Family-Owned

- Hook: Authority / social proof

- Format: `single_image`
- Direction: Establish credibility via 'Local Pride / Family-Owned'. Pair with 30+ years legacy framing for brand-awareness layer.

## Success metrics

**Cold:**  $\text{CTR} \geq 1.00\%$  ·  $\text{CPM} \leq \$30$  ·  $\text{CPA} \leq \$50$  ·  $\text{ROAS} \geq 1.5$

**Warm:**  $\text{CPA} \leq \$30$  ·  $\text{ROAS} \geq 3$

**Scale gate:** 3 consecutive days  $\text{ROAS} > \text{target}$  before any budget increase

## 30-day calendar

### Week 1

- Launch Phase A — `OUTCOME_TRAFFIC`
- 3 creatives × 2 audiences
- Daily monitoring; no scaling decisions

### Week 2

- Kill underperformers per pause thresholds
- Refresh worst-performing creative
- Begin reviewing audience-level signals

### Week 3

- Begin Phase B — `OUTCOME_SALES`
- Continue cold prospecting
- Evaluate scaling gate (3-day  $\text{ROAS} > \text{target}$ )

### Week 4

- Begin Phase C — `OUTCOME_SALES`
- Launch LAL 1% if gate passed
- Plan month-2 budget and creative refresh

## Assumptions / divergences

- Re-grounded from \$3000/mo planning range to client-confirmed \$1,500/mo (paid ads only) on 2026-06-29; daily budgets scaled 0.5x, cold/warm/lal split preserved.
-
